Product Description

Ferris FW15 VARIABLE HYDROSTATIC 32" COMMERCIAL WALK BEHIND

The job isn't done until all the nooks and crannies of the property are mowed, including around trees and landscaping. That's why every crew needs an FW15 on the truck. This variable hydrostatic 32" commercial walk-behind is sturdy enough for the rigors of commercial work and is also maneuverable and easy to operate.

Best Use for the Ferris FW15 32" Walk Behind

- Tight-access residential and commercial properties
- Mowing around trees, fencing, and landscape features
- Properties with narrow gates or restricted entry points
- Professional lawn care crews needing a compact secondary mower
- Detailed trimming and finish mowing jobs

Compact Power for Commercial Crews

The Ferris FW15 32" Walk Behind Mower FW15 delivers commercial durability in a compact, maneuverable package. Its variable hydrostatic transmission and powerful engine make it the ideal solution for tight spaces and precision mowing. Add efficiency and versatility to your fleet with the Ferris FW15—[contact us today for availability and pricing.](#)
